

Action OS - What the Company Is

Nisaba in one breath, then the family map.

Plain opener

Nisaba is the Action OS. We sit on permission for irreversible acts - money leaving, coverage binding, force-class releases in category. Our scarce product is a DENY that actually holds, with a receipt a stranger can open. A speech about safety with no halt is just software marketing.

Palantir made knowing cheaper. We sit on acting: should this irreversible write complete?

Formula

Own permission on irreversible acts for any power that needs it - and make your scarcity the DENY, not the narrative.

Who we serve

- Anyone whose write is irreversible: treasuries, payment rails, companies, carriers, states.
- Serving conflicting powers is structural when you sit on the act - neutrality theater is fake.
- We refuse soft-yes resurrection and forged LIVE. We do not refuse the category.

Family map (one question each)

- Erra: Should we act? (signal ACT/HOLD)
- Velaru: Did we commit correctly? (proof ALLOW/BLOCK + fuse)
- Gate: Does the irreversible write complete? (mouth /v1/act, CHARGE, weld)
- Verra: Did both rails clear before bind?
- Mishara: Was a person harmed?

Integrity rules

- CHARGE is the only DEAD -> LIVE path - buyer cannot purchase a dashboard flip
- Stranger verify without login
- One exclusive door per weld - no bypass UI
- Fail closed on DEAD / timeout / 5xx - never treat unreachable as LIVE
- their_production stays false until a real exclusive third-party weld
- Force/battlefield doors stay unclaimed until welded - category != costume

Money faces vs the firm

- Diligence (\$2,500): paid find of may-gaps - not a weld
- Bind Room (\$1,750): examiner halt artifacts - not a weld
- Operator / register / weld: fortune lane when a real path is exclusive
- Prefinality is law inside Nisaba - not a sister company

Not this

- Claimed contracts or production we do not have
- AI governance slideshows that never sit on the write
- Scarcity as storytelling while DENY does not hold

Retrieval drill

- One sentence: what is Nisaba?

- What is the scarce product?
- Name Gate's question.
- Why is controversy structural?
