

02 action_os.py - company nature

Source: *gate/action_os.py*

```
"""Nisaba Action OS - company nature, not homepage theater.
```

```
Formula:
```

```
    Own permission on irreversible acts for any power that needs it -  
    and make your scarcity the DENY, not the narrative.
```

```
Palantir integrates data so institutions can know faster.
```

```
Nisaba sits on irreversible action: should this act run?
```

```
We serve everybody - economies, politicians, companies, any entity  
whose write moves capital, coverage, or force. Controversy is nature  
when DENY/DEAD is a real event. Integrity is CHARGE-only, stranger  
verify, one door, fail-closed - not buyer purity theater.
```

```
Force / battlefield authority is in the category. It is not a claimed  
production weld until someone pays for that door.
```

```
"""
