

Bind Room - Money Face SKU

Examiner artifacts: officer pack and stranger-openable halt evidence. Not the production weld.

Source: [gate/bind_room.py](#)

What it is

Bind Room - two artifacts examiners actually take.

A) Officer pack (≤ 10 pages / SERFF-shaped) - titles on each Section 5 duty.

B) On-request appendix - each bind event $\rightarrow$ verify_url + hop. Not the SERFF filing.

Price / CTA (from officer_pack schema)

Price: \$1,750

Filing: Colorado Regulation 10-1-1 Section 6 - SERFF Annual Report, ≤ 10 pages, officer attestation

Not the filing: Appendix B (verify permalinks) is on-request, not the SERFF body.

Also maps

- NYDFS Circular Letter 7 (2024) - board oversight, annual testing, vendor audit rights, 11 NYCRR 243
- NAIC AI Risk Evaluation Supplement Exhibit C - HITL, who can override, that they did
- ASOP 56 - another actuary can reconstruct the bind-stop

Refuse

- Do not lead with FRE 707 to a CUO.
- Do not sell model inventory (Monitaur's pile).
- Do not put PII on Gate.

Section 5 duties (titles)

5.A.1 Governing principles

ECDIS/algorithms designed and monitored to prevent unfair discrimination.

5.A.2 Roles and responsibilities

FILL: title of the person who can stop bind-and-issue when the fuse is DEAD.

5.A.3 Inventory and versioning

List agent/bind automations. Gate is a control plane, not a rating model.

5.A.4 Testing / validation

DEAD drill: POST /demo/pas/bind-check $\rightarrow$ BLOCK + verify_url.

5.A.5 Deployment / use controls

PolicyCenter: hop before POST /job/v1/jobs/{id}/bind-and-issue.

5.A.6 Ongoing monitoring

Appendix B: bind events with verify permalinks. Timeout = HALT, never LIVE.

5.A.7 Consumer complaints

Use existing grievance procedures. Verify link is the independent proof.

5.A.8 Risk prioritization

Bind/issue and claims-pay are high-impact delegated action (AM Best Columbus 13 Aug 2026).

5.A.9 Model drift / performance

Fuse state change is the drift that matters on the write path. CHARGE-only resurrect.

5.A.10 Human-in-the-loop

UW issue blocks bind. Approve without CHARGE does not resurrect.

5.A.11 Vendor oversight

Nisaba LLC / Gate. Control, not ECDIS. Audit rights in /listings/control-not-model.json.

5.A.12 Third-party remains insurer duty

Colorado 5.B / NAIC: carrier stays responsible. Do not file Gate as a rate model.

5.A.13 Annual review

Re-attest officer pack. Refresh appendix B from GET /v1/pas/bind-appendix.
