1. Column - `security@column.com`

****Subject:**** DEPOSIT - Column credit write without may

Security / Bank Ops - Column

You sit on a federally chartered credit path. The question that matters under load isn't whether the API can post - it's whether a stranger-openable halt still exists when something is already allowed.

Mouth / finality diligence (Nisaba LLC): where can an irreversible write complete without may on your leave path?

\$2,500 deposit due now -> 72h written find.

Review band \$5k-\$8k. Not a pentest. Not a governance PDF. Not selling may.
